

## SDG 6: Clean Water and Sanitation

### Water use and care

- The Arab Open University provides free drinking water to students, staff, and visitors throughout the campus.

- The Arab Open University has drought-resistant plants in its landscaping to reduce water consumption. This sustainable approach helps conserve water resources while maintaining a pleasant campus environment.

[The Arab Open University in Egypt carried out a tree-planting and .cleaning campaign on its campus and in the surrounding streets](#)

## Water Tanks

- The university has **two water tanks**, each with a capacity of **500 cubic meters**.
- The Arab Open University actively promotes the conscious use of water on campus and in the wider community through various initiatives. These initiatives may include awareness campaigns, educational programs, workshops, collaboration with local organizations to educate the public about water conservation practices, and implementing water-saving technologies to encourage responsible water consumption
